- Intentional peeling, lifting, pulling or manipulation of the film, edges or seams.
- Normal wear and tear, aftermarket modifications or incompatible products.
- Installation on unsuitable, unstable, illegal or non-recommended surfaces.

PPF LIMITED WARRANTY

Claims, limitations & registration

VEHICLE SURFACE REQUIREMENTS

Grizzly Paint Protection Film is intendedprimarily for properly prepared automotive painted surfaces. Unless specifically approved in writing, warranty coverage may not apply to repainted panels, aftermarket paint, vinyl wraps or other non-OEM finishes where adhesion, paint stability or surface condition cannot be guaranteed. Film removal damage is not covered where the underlying paint has been repainted, repaired, improperly prepared or is otherwise unstable. Non-painted surfaces such as lights, chrome, plastic trim or carbon-fiber components may be excluded unless specifically approved for that application.

WARRANTY CLAIM PROCEDURE

- Contact the originalinstaller asthefirst point of service.
- Provide proof of purchase, installation date, product information and vehicle details when requested.
- Photographs and physical inspection of the affected area may be required.
- Grizzly Protection may determine whether the condition is a manufacturing defect, installation issue, external damage or an excluded condition.

IMPLIED WARRANTY LIMITATION

To the extent permitted by applicable law, implied warranties or conditions, including merchantability or fitness for a particular purpose, are limited to the applicable written warranty period. Some jurisdictions do not permit such limitations.

LIMITATION OF LIABILITY

To the extent permitted by applicable law, Grizzly Protection, its distributors and installers are not liable for indirect, incidental, special or consequential loss or damage. Mandatory legal rights are not excluded.

WARRANTY MAINTENANCE REQUIREMENT

Tomaintain warranty eligibility,the customer mustfollowGrizzly Protection's Aftercare & Maintenance Instructions. The first recommended inspection and maintenance should take place approximately 7-10 days after installation, followed by a professional maintenance inspection at least once every six months throughout the applicable warranty period. Failure to maintain the Product may affect warranty coverage where the lack of maintenance contributed to the reported issue.
